Clematis x integrifolia Arabella

Flower: PURPLE BLUE in Summer to Frost
Light: SUN to PARTIAL SHADE **Soil:** WELL DRAINED **Height:** 150 cm.
 Purple-blue flowers with prominent cream anthers. Very free-flowering over a long period. Ideal for growing through small shrubs. A hybrid of *C. integrifolia* raised by Barry Fretwell and introduced in 1990. Prune to the ground in very early spring. (Family: Ranunculaceae; Native to: GARDEN ORIG.)
 5445

Clematis Arabella

13 cm Deep Pot
 Regular Price: \$17.00
Sale Price: \$8.50

Clematis x integrifolia Pamjat Serdsta

Flower: PURPLE in Early Summer to Fall
Light: SUN to PARTIAL SHADE **Soil:** WELL DRAINED **Height:** 120 cm.
 The name translates as "memory of the heart". Long blooming and satin sheened, the rich colored heliotrope purple blooms show off darker, glossier midribs. Developed at the Ukraine's Nikita Botanic Garden. Prune to the ground in late winter, early spring. (Family: Ranunculaceae; Native to: GARDEN ORIG.)
 9703

Clematis Pamjat Serdsta

13 cm Deep Pot
 Regular Price: \$21.00
Sale Price: \$10.50

Clematis x integrifolia Roguchi

Flower: BLUE-PURPLE NODDING in Summer to Frost
Light: SUN to PARTIAL SHADE **Soil:** WELL DRAINED **Height:** 200 cm.
 With bells to 5 cm (2 inches) long (especially on the earliest flowers), and strong ridging on thick sepals, somehow deepening the color and intensifying the luster of the integrifolia parent. Pale borders accentuate the four sepals, which are the blue of Italian plums. Prune to ground in late winter. (Family: Ranunculaceae; Native to: GARDEN ORIG.)
 7635

Clematis Roguchi

13 cm Deep Pot
 Regular Price: \$18.00
Sale Price: \$9.00

Clematis x viticella Etoile Violette

Flower: DEEP PURPLE in Mid-Summer
Light: FULL SUN **Soil:** WELL DRAINED **Height:** 300 cm.
 10 to 13 cm wide, deep purple flowers are produced in profusion. Creamy yellow stamens. Raised by Morel of Lyon in 1885, a very free-flowering cultivar. Prune to ground in early spring. (Family: Ranunculaceae; Native to: GARDEN ORIG.)
 9701

13 cm Deep Pot
 Regular Price: \$21.00
Sale Price: \$10.50

Larix occidentalis Bollinger

Flower: NONE
Light: SUN to PARTIAL SHADE **Soil:** DRY **Height:** 100 cm.
 Western Larch. Needles are bright green, held on short branches, radiating outward in all directions, the classic "broom" shape. Grows to 1m in 10 years. (Limited Availability) (Family: Pinaceae; Native to: GARDEN ORIG.)
 9582

Bollinger Dwarf Western Larch

18 cm Round Pot
 Regular Price: \$30.00
Sale Price: \$15.00

Monarda x Balmy Rose

Flower: ROSE in Mid-Summer
Light: SUN to PARTIAL SHADE **Soil:** WELL DRAINED **Height:** 25 cm.
 Best mildew resistance of today's commercial cultivars, very floriferous and compact, rose color flowers, lance-shaped dark green fragrant foliage. (Family: Labiatae; Native to: GARDEN ORIG.)
 9712

Dwarf Rose BeeBalm

13 cm Short Pot
 Regular Price: \$10.00
Sale Price: \$5.00

Picea abies Tompa

Flower: NONE
Light: SUN to PARTIAL SHADE **Soil:** MOIST **Height:** 90 cm.
 Dwarf, globose to cone shaped plant with dense, light green foliage. Grows to 90 cm high and 60 cm wide in 10 years. (Family: Pinaceae; Native to: GARDEN ORIG.)
 9225

12 cm Deep Pot
 Regular Price: \$12.00

Pinus cembra Stricta**Flower:** NONE**Light:** SUN to PARTIAL SHADE **Soil:** WELL DRAINED **Height:** 120 cm.
Narrow columnar growth. Dens foliage and slow growth make it a valuable and unique. Needles are soft blue-green. 'Stricta' has been in cultivation since 1855. Prefers full sun in well-drained soil. 1.2 m tall x 40 cm wide in 10 years. (Limited Availability) (Family: Pinaceae; Native to: GARDEN ORIG.)
946018 cm Round Pot
Regular Price: \$30.00**Sale Price: \$15.00****Polygonatum odoratum flora plena****Flower:** WHITE AND GREEN in Late Spring**Light:** PARTIAL SHADE **Soil:** MOIST **Height:** 50 cm.
Hard to come by and desirable double form of this excellent garden plant. The extra petals looks like a little green rose when you lift one of the dangling white bells and peer inside. (Family: Convallariaceae; Native to: GARDEN ORIG.)
9765**Double flowered Solomon Seal**18 cm Round Pot
Regular Price: \$27.00**Sale Price: \$13.50****Ribes aureum****Flower:** BRIGHT YELLOW/CLOVE SCENTED in Late Spring**Light:** SUN to PARTIAL SHADE **Soil:** ANY **Height:** 160 cm.
a Western native plant, valued for its large, black edible fruit. The shrub blooms in mid-spring, with highly fragrant yellow flowers reminiscent of cloves or vanilla. With a fine display of orange to red fall foliage, this easy-to-grow shrub provides the landscape with three seasons of interest. Most soil types including clay. (Family: Grossulariaceae; Native to: Western N. America)
9870**Black or Golden Currant**18 cm Round Pot
Regular Price: \$17.00**Sale Price: \$8.50****Sanguinaria canadensis Multiplex****Flower:** PURE DOUBLE WHITE in Early Spring**Light:** PARTIAL SHADE **Soil:** MOIST **Height:** 15 cm.
Pristine white waterlily-like flowers emerge in spring, the new leaf cupped around the flowering stem. Grow in a well drained site in light shade with a woods soil, reasonably high in organic matter. (Limited Availability) (Family: Papaveraceae; Native to: GARDEN ORIG.)
8779**Double Flowered Bloodroot**13 cm Deep Pot
Regular Price: \$46.00**Sale Price: \$23.00****Tsuga diversifolia Gracilis****Flower:** NONE**Light:** SUN to PARTIAL SHADE **Soil:** MOIST **Height:** 150 cm.
Dwarf, rounded shrub. Dense branching gives way to a more stiffly structured plant with age. The unusual short and rounded needles are a rich glossy green. About 5 cm of growth per year. (Limited Availability) (Family: Pinaceae; Native to: Northern Japan)
9462**Northern Japanese Hemlock**18 cm Round Pot
Regular Price: \$30.00**Sale Price: \$15.00**

Pricing is based on plant size, how fast it can be propagated and rarity. Pot sizes are based on the diameter of the pot.
